—John  
A. B.  
Munro,

1869 Issue.—A proof of the spirit of enterprise which characterizes the colonists in British Columbia is afforded by the receipt in London (through Mr. G. Street, of Cornhill), of the "First Victoria Directory and British Columbia Guide." It comprises a directory of "business men and householders in Victoria and the districts, including a large portion of the mainland of British Columbia," together with other particulars, and is compiled and published by Mr. E. Mallandaine, architect. A work of this kind is no small undertaking for a new place of limited dimensions.—*Daily News.*

## **PREFATORY REMARKS.**

An interval of two years and a half has elapsed since the last publication of a directory. Many changes have occurred in our Government and experiences since April, 1871.

On the 20th July, 1871, Confederation with Canada, was consummated. And on the very day, or slightly before it, the first party of Railway Surveyors, completely equipped, many of whom had come from the Eastern Provinces, left Victoria for the Mainland to commence the exploratory surveys for the Canadian Pacific Railway. The 20th July came again last year, the date which was to witness the actual commencement of the Railway; but beyond a formal two hours' survey, nothing was done in construction at this end.

In the meanwhile surveys were vigorously carried on, especially at first Victoria seemed to realize Confederation in the arrival soon after the commencement of the surveys, of Hon. H. L. Langevin, Minister of Public Works, and Sandford Fleming Esq., Chief Engineer, both of whom on their return, presented exhaustive and highly interesting reports on British Columbia. The Chief Inspector of Post Offices

## PREFATORY REMARKS.

quickly followed, almost accompanied by the Financial Inspector for the Dominion, Thos. D. Tims, Esq., matters seemed to be assuming a Dominion aspect.

It was not till 1873 that things were sufficiently advanced to witness the commencement of some of the public works of the Province for which liberal sums had been voted by the Canadian Parliament, to wit, the Post Office, Public Offices and Savings Bank, still in hand, the Marine Hospital also in progress. Both will be ornaments to the city,\* being of a very substantial character. The Cape Beale Lighthouse has been executed. The entrance to the harbor has been dredged at an expense for the season, of \$25,000.

The sum expended, or to be expended on these buildings, stand as follow:—

|                                  |         |                |
|----------------------------------|---------|----------------|
| Post Office, Savings Bank, etc., | -       | about \$28,000 |
| Marine Hospital,                 | - - - - | " 18,000       |
| Cape Beale Lighthouse,           | - - - - | " 7,000        |
| Harbor Dredging,                 | - - - - | " 25,000       |

The blasting of the Sister Rocks on the Mainland, contract \$5,500, this year taken in hand, will be a great help to the navigation of Fraser River.

Plans have arrived, now some months, for the New Custom House, foot of Broughton street, cost, voted on, to be \$25,000.

Penitentiary, as voted, - - - - - \$25,000  
Not yet commenced.

Following is a list of the expenditure for Public Works by the Provincial Government: †

### *Surveys.*

Turner's connecting and township surveys,  
Explorations under Mohun, Mahood,  
Ralph, Dewdney and Fannin, - 8,866

### *Roads and Trails.*

In Victoria District, - - - - - 7,533

\* Neither of them designed by the compiler, as it has been somewhat generally asserted, E. M.

† Taken from the Chief Commissioner's Report as published.

Grand Total, - - - - \$117,540

*New Cemetery.*—In the year 1873 was inaugurated a new Cemetery at Foul Bay, about 1½ miles from the city. It contains 12½ acres of ground, ornamentally laid out, with a handsome lodge, entrance gates and approaches.

We need not add that the expenditure of the above sums in spite of untoward delay, has been of benefit to the Province.

This Province has lost since the last issue, the Island of San Juan, which it fondly hoped against hope, to call its own. By the award of the Emperor of Germany, it was given to the United States. The fatality that was noticed about the matter, was that the British by the terms of the reference, ingeniously shut themselves out of one chance in their

## PREFATORY REMARKS.

favor. To this pass, if report speaks truly, they were brought by a spirit of subserviency.

The vexed question of the Quarantine Claims has at length been settled, *at least finally, if not quite satisfactorily*. It presented a form of nice triangular quarrel between the Dominion, Provincial and Municipal Governments. It has been regretted that a merchant was not named as a third member of the Commission.

The City of Victoria taking authority from the Municipal Amendment Act, 1872, has obtained by letters patent, dated 10th May 1873, an extension of its boundaries. They now reach not exceeding half a mile beyond the ancient limits. By the First Amended Act, the City Councillors number seven and not exceeding ten.

A Water Works Act has also been obtained, by which authority was received to bring in water from Elk Lake for the supply of the city. Under that act debentures have been issued for raising the sum of \$100,000.

A City Surveyor and Civil Engineer for the water works, and a Water Commissioner have been duly appointed.

The Elk Lake has been cleansed, and a masonry dam for increasing the volume of water, built at a cost of \$5,900. Besides clearing expenses about \$10,000.

One may say that the whole scheme begins to wear an aspect of reality to which it was long a stranger.

By the published statement of receipts and disbursements of the City, the cash receipts from all sources between 1st March and 31st December 1873, was \$40,568 18, and the disbursements \$40,365 61; and the balance of assets against liabilities \$8,990 68.

To the City Fathers, under the new system, much credit is due for the improved appearance of the Capital. In every street improvements, during seasonable weather, might be seen going on. In spite of dull times, streets were graded, gravelled and lighted. Gas for the first time made its ap-

## PREFATORY REMARKS.

pearance as a public institution. Serious steps were taken for a City Hall.

In a word, removed apparently from the atmosphere of politics, Victoria incorporated, once more exemplified the fact that depression was a thing it understood not; though the year 1878 will, by many, be remembered as one going beyond the average of even Victoria experiences in the good old ante-Confederation times.

## EDUCATION.

A statement of the progress of the Colony would not be complete without at least a synopsis of the Report on Public Schools, so well drawn up by the Superintendent of Education.

From this we learn that there are 26 school districts, or teaching centres in the Province; that there are about 1766 children of school age, (between 5 and 16 years); that 368 attend private schools and 281 attend no school at all; that the sum of \$41,188 was expended for school purposes; that the school inspections by the Superintendent entailed 2580 miles of travel, or an average of 40 miles for each visit, to which may be added 450 miles in visiting Nicola Valley, Kamloops, etc., making a total of 2930 miles.

There are 22 school houses, 12 being new. The report pressinglly urges the erection of teachers' residences, and recommends the raising of teachers' salaries 25 per cent.

And, (as there are 281 children growing up without school tuition at all), "Trustees of schools are proposing energetically to carry out, at an early date, the provisions of the law as regards compulsory education." "The mere fact of these clauses," the Superintendent adds, "being on the Statute Book, though not yet enforced in any of the districts but one, has been productive of good results in securing better attendance at schools."

And, recommends more vocal music in schools.

Appended will be found the Text of the Terms of Confederation with Canada, still the subject of much interest and animated discussion.

## Text of the Terms.

1. Canada shall be liable for the debts and liabilities of British Columbia existing at the time of Union.

2. British Columbia not having incurred debts equal to those of the other Provinces now constituting the Dominion shall be entitled to receive by half-yearly payments in advance from the General Government, interest at the rate of five per cent, per annum on the difference between the actual amount of its indebtedness per head of the population of Nova Scotia and New Brunswick (\$27-77), the population of British Columbia being taken at 60,000.

3. The following sums shall be paid by Canada to British Columbia, for the support of its Government and Legislature, to wit, an annual subsidy \$35,000, and an annual grant equal to 80 cents per head of the said population of 60,000, both half-yearly in advance, such grant of 80 cents per head to be augmented in proportion to the increase of population, as may be shown by each subsequent decennial census, until the population amounts to 400,000, at which rate such grant shall thereafter remain, it being understood that the first census be taken in the year 1881.

4. The Dominion shall provide an efficient mail service, fortnightly, by steam communication between Victoria and San Francisco, and twice a week between Victoria and Olympia; the Vessels to be adapted for the conveyance of freight and passengers.

5. Canada will assume and defray the charges for the following Services:—

A. Salary of the Lieutenant-Governor.

B. Salaries and allowances of the Judges of the Supreme Courts and the County and District Courts.

C. The charges in respect to the Department of Customs.

D. The Postal and Telegraph Services.

E. Protection and encouragement of Fisheries.

F. Provision for the Militia.

G. Lighthouses, Buoys, and Beacons, Shipwrecked Crews, Quarantine and Marine Hospitals, including a Marine Hospital at Victoria.

H. Geological Survey.

I. The Penitentiary.

And such further charges as may be incident to and connected with the services which by the British North America Act of 1867 appertain to the General Government, and as are or may be allowed to the other Provinces.

6. Suitable Pensions such as shall be approved of by Her Majesty's Government shall be provided by the Government of the Dominion for those of

## PREFATORY REMARKS.

Her Majesty's Servants in the colony whose position and emoluments derived therefrom would be affected by political changes on the admission of British Columbia in the Dominion of Canada.

7. It is agreed that the existing Customs Tariff and Excise Duties shall continue in force in British Columbia until the Railway from the Pacific Coast and the system of Railways in Canada are connected, unless the Legislature of British Columbia should sooner decide to accept the Tariff and Excise Laws of Canada. When Customs and Excise Duties are, at the time of the Union of British Columbia with Canada, leviable on any Goods, Wares or Merchandise in British Columbia, or in the other Provinces of the Dominion, those Goods, Wares, or Merchandise may, from and after the Union, be imported into British Columbia from the Provinces now composing the Dominion, or from either of those Provinces into British Columbia on proof of payment of the Customs or Excise Duties leviable thereon in the Province of Exportation, and on the payment of such further amount (if any) of Customs or Excise Duties as are leviable thereon in the Province of Importation. This arrangement to have no force or effect after the assimilation of the Tariff and Excise Duties of British Columbia with those of the Dominion.

8. British Columbia shall be entitled to be represented in the Senate by Three Members, and by six Members in the House of Commons. The representation to be increased under the provisions of the "British North America Act, 1867."

9. The influence of the Dominion Government shall be used to secure the continued maintenance of the Naval Station at Esquimalt.

10. The provisions of the "British North America Act, 1867," shall (except those parts thereof which are in the terms made, or by reasonable intendment may be held to be specially applicable to and only affect one and not the whole of the Provinces now comprising the Dominion, and except so far as the same may be varied by this Minute) be applicable to British Columbia, in the same way and to the like extent as they apply to the other Provinces of the Dominion, and as if the Colony of British Columbia had been one of the Provinces originally united by the said Act.

11. The Government of the Dominion undertake to secure the commencement, simultaneously, within two years from the date of the Union, of the construction of a railway from the Pacific towards the Rocky Mountains, and from such point as may be selected east of the Rocky Mountains, towards the Pacific, to connect the Seaboard of British Columbia with the railway system of Canada; and further, to secure the completion of such railway within ten years from the date of Union.

And the Government of British Columbia agree to convey to the Dominion Government, in trust, to be appropriated in such manner as the Dominion Government may deem advisable in furtherance of the construction of the said line of railway, a similar extent of public lands along the line of railway throughout its entire length in British Columbia, not to exceed, however, 20 miles on each side of the said line, as may be appropriated for the same purpose by the Dominion Government from the public lands in the

## PREFATORY REMARKS.

North-West Territories and the Province of Manitoba. Provided that the quantity of land which may be held under pre-emption right or by Crown Grant within the limits of the tract of land in British Columbia to be so conveyed to the Dominion Government, shall be made good to the Dominion from contiguous public lands; and provided further, that until the commencement, within two years as aforesaid from the date of Union, of the construction of the said railway, the Government of British Columbia shall not sell or alienate any further portions of public lands of British Columbia in any other way than under right of pre-emption, requiring actual residence of the pre-emptor on the land claimed by him. In consideration of the land to be so conveyed in aid of the construction of the said railway, the Dominion Government agree to pay to British Columbia, from the date of Union, the sum of \$100,000 per annum, in half-yearly payments in advance.

12. The Dominion Government shall guarantee the interest for ten years from the date of the completion of the works, at the rate of five per centum per annum, on such sum, not exceeding £100,000 sterling, as may be required for the construction of a first class Graving Dock at Esquimalt.

13. The charge of the Indians, and the trusteeship and management of the Lands reserved for their use and benefit shall be assumed by the Dominion Government, and a policy as liberal as that hitherto pursued by the British Columbia Government shall be continued by the Dominion Government after the Union.

To carry out such policy, tracts of land of such extent as it has hitherto been the practice of the British Columbia Government to appropriate for that purpose, shall from time to time be conveyed by the Local Government to the Dominion Government in trust for the use and benefit of the Indians on application of the Dominion Government; and in case of disagreement between the two Governments respecting the quantity of such tracts of Land to be so granted, the matter shall be referred for the decision of the Secretary of State for the Colonies.

14. The Constitution of the Executive Authority and of the Legislature of British Columbia shall, subject to the provisions of the "British North America Act, 1867," continue as existing at the time of the Union until altered under the Authority of the said Act, it being at the same time understood that the Government of the Dominion shall readily consent to the introduction of Responsible Government when desired by the inhabitants of British Columbia, and it being likewise understood that it is the intention of the Governor of British Columbia, under the authority of the Secretary of State for the Colonies, to amend the existing Constitution of the Legislature by providing that a majority of its members shall be elective.

The Union shall take effect according to the foregoing terms and conditions on such day as Her Majesty by and with the advice of Her Most Honorable Privy Council may appoint (on addresses from the Legislature of the Colony of British Columbia, and of the Houses of Parliament of Canada, in Terms of the 46th section of the "British North America Act, 1867,") and British Columbia may in its address specify the Electoral Districts, for which the first election of Members to serve in the House of Commons shall take place.

## PREFATORY REMARKS.

### ELECTORAL DISTRICTS. \*

(FOR THE LOCAL HOUSE.)

- 1.—CARIBOO DISTRICT, comprising
 

|                                                             |                                                                                        |

## PREFATORY REMARKS.

### 12.—COMOX DISTRICT.

Sends one member.

## ELECTORAL DISTRICTS FOR OTTAWA.

### MAINLAND.

- A.—CARIBOO DISTRICT—comprising Cariboo and Lillooet Districts, consolidated.—See Local House List.  
B.—YALE DISTRICT—comprising Yale and Kootenay Districts, consolidated. See Local House List.  
C.—NEW WESTMINSTER DISTRICT—comprising New Westminster City and Coast Districts, consolidated.—See Local House List.

### ISLAND.

- D.—VICTORIA DISTRICT—comprising Victoria District, Victoria City District, and Esquimalt District, consolidated.—See Local House List.  
E.—VANCOUVER DISTRICT—comprising the remainder of the Island.

In every case the Islands next adjacent to a district belong to that district.

The Directory will this year be found to contain :—

An alphabetical list of names, chiefly of Victoria City and the immediately adjoining districts, but interspersed with those of leading business men in other districts;

Lists of names in every district of the Province, as accurate as the imperfect means at command would allow, headed with statistical remarks where procurable;

Names and officers of public bodies, friendly and benevolent societies;

Postal rates for British Columbia, and arrival and departure of outward mails;

A page devoted to imports and exports for 1873;

The Dominion Tariff in alphabetical order;

A list of officials, with salaries.

### IN CONCLUSION

The Author's thanks are returned for official and other information, cheerfully rendered in the compilation of this work, and the kind assistance of Mr. F. J. Barnard and many other friends who, with great liberality, have habitually furnished lists for this work, of names in the outlying districts.

### CASSIAR DISTRICT.

This, the last discovered gold district and one of the easiest reached from Victoria, promises this season to be filled with miners, and will no doubt give a good account of itself in response to the gathering.

The mines are situated on Stickeen River, on the third North Fork, on Thibert Creek, (so called from its discoverer,) a tributary called Delure Creek, and Deases' Creek; running out of Deases' Lake. The other creeks in the neighborhood are no doubt auriferous also; Canyon Creek, Deases' River, etc.

The ice leaves the Stickeen about 6th May. From that time suitable steamers can run until the 1st or middle of October up to the first North Fork; the travel, owing to the lowness of the water, is chiefly by canoe. Above the North Fork falls occur for a length of six miles, but once past these, travel by boat, etc., is resumed.

The time of travel may be taken as follows: (Passengers by ocean steamers land at Fort Wrangel.)

Fort Wrangel to Buck's Bar, opposite the South Fork of the Stickeen and opposite the Indian village, by canoe, 12 days.

From Buck's Bar to Deases' Lake, on foot with double packs, say 90 miles, 16 days.

From Deases' Lake to the mines, - 3 days.

Deases' Lake opens from 15th to 25th May.

The ground in the mines remains frozen till the middle of June; on the shady side of some creeks the ground is frozen down to the bed-rock.

On the lower Stickeen the snow fall reaches sixty and seventy feet, which consolidates to nineteen feet. On the upper Stickeen, the snow fall is lighter; there, throughout the Summer months, the weather is at times excessively warm. On the high mountain trail, east of the third North Fork, patches of snow have been seen on the 1st of July.

[For the above description the author is indebted to the published report of the Lands and Works Office, furnished by Capt. W. Moore, an explorer. Attention is also called to the excellent map furnished by the latter, and drawn by T. Westgarth.]

In view of the extreme hardships accompanying researches after gold, especially in the above inclement latitudes, it may be allowable to raise the question, if the bonus is sufficient that is offered to discoverers of a new mining locality, viz.: 100 feet extra to a claim of two men, the original claim being "100 feet up and down, and the whole width from base to base." If three men are in a company, 50 feet each extra are allowed. Now, a less number than five or six men cannot well prospect. It is, we repeat, a serious question whether less than 100 feet per man, should constitute the reward to discoverers of paying mining localities.

In Australia, we believe, the reward is much greater even than this.

*Following is the list of miners, traders, &c., already left Victoria before March 10th. A considerable number of names will be found elsewhere, which were not procured in time for insertion here.*

[Note.—Any parties in the following list whose names may be found elsewhere, will be considered as now forming part of the population of Cassiar.

 Wannacott G. B., (see Das-sonville & W.)

### KOOTENAY DISTRICT NAMES.

*N. B.—The District of Columbia and Kootenay contains a population of 108 whites, 139 Chinese, 2 coloured and 553 natives. Total 802. It has one saw mill, water power, in operation, and one bed rock flume in construction. The industrial pursuits are chiefly gold mining, sluicing and teaming. Taken from Census, &c., 1871.*

**DESCRIPTION.**—[Communicated.]—Kootenay consists of a beautiful fertile valley, extending from the Tobacco Plains, at the Boundary line, up to the Howe Pass and Boat Landing on the Columbia, being 250 miles long. At one point only half a mile intervenes between the source of the Columbia

and the Kootenay river. Cattle and horses generally winter in the open air, the weather being mild. The valley spreads like a panorama before the eye for from fifty to seventy-five miles, from the Rocky Mountains on the East to the Selkirk Range on the West; the average breadth being thirty miles. Towards the river the land is flat, capable of producing large crops. Of late years it has been proved that cereals and vegetables are produced second to none. Bunch grass is everywhere in abundance. As regards the mines, probably more men have left Kootenay with money than any other mining camp in the Province. Over one million dollars has found its way to Walla Walla and Portland in trading, (the principal trade being in that direction), and another half million by passengers, etc.; both amounts rather under estimated.

| Dubball John, farmer.                 | Posten E., farmer.              |
| Gilmore John, Nicola Lake.            | Robb Alex., farmer.             |

## 82. NICOLA VALLEY, N. SAANICH & OMINECA NAMES.

Steynell M., farmer. Vernou James, Coldstream.  
Turner R. W., farmer. Woodward H. H., farmer.  
Lundbaum A. W., Nicola Lake.

### NORTH SAANICH NAMES.

*In April, 1871.—The Census returns for North Saanich, South Saanich, Highland District, Lake, Victoria District, Esquimalt District, Metchosin, Sooke, and Esquimalt Town, was 2,181 for whites, coloured, Chinese and natives.*

NOTE.—The Author regrets that, from unavoidable causes, the list of names from these Districts, except the last, are more imperfect than he could wish.

NOTE.—Names marked "a" are those of registered voters. (See also "f")  
General List,

---

Messrs. Hayward and Jenkinson, Contractors, &c., Langley Street, have a large establishment for the manufacture of all kinds of wood work. The machinery is driven by a 25-horse power engine, and consists of circular and cross-cut saws, planing, moulding, morticing and tenoning machines, lathes, etc. In connection with the boiler is a large drying room for seasoning lumber. The stock of mouldings, doors and windows, is large and varied, and the facilities for making up special orders apparently all that could be desired. We wish this enterprising firm the success they deserve.

## LUMBER TRADE OF CANADA.

[FROM THE "MONETARY TIMES,]

The number of men and the amount of capital employed in lumbering throughout the Dominion, are exceedingly large. It has become, next to Agriculture, the principal source of our annual exports. This will be seen at once by a glance at the value of our exports from Confederation up to the latest published returns:—

|           |              |           |               |
|-----------|--------------|-----------|---------------|
| 1868..... | \$18,262,170 | 1869..... | \$19,838,963  |
| 1870..... | 20,940,434   | 1871..... | 22,352,211    |
| 1872..... |              |           | \$23,685,382. |

Twenty-four millions, not to speak of our immense domestic trade, are handsome results.

### PHENIX FIRE ASSURANCE CO.,

LOMBARD ST., AND CHARING CROSS, LONDON.

ESTABLISHED, - - - 1782.

**For Insuring every kind of Property in all parts of the World from  
Loss or Damage by Fire.**

The Promptitude and liberality with which its engagements are always met by this Company are well-known, and the importance of its relations with the public may be estimated from the fact that since its establishment it has paid more than Nine Millions Sterling in discharge of claims for Losses by Fire.

The security offered to the public by the Phoenix Office is unlimited, comprising, in addition to the large invested capital of the Company, the whole fortunes of numerous proprietors, composed of some of the most opulent merchants and others in the United Kingdom. Annual and short time Insurances are effected upon all kinds of property in Vancouver Island and British Columbia on the most favorable terms.

Prompt Cash Payments and full power to settle all losses and claims without referring to the Head Office in London.

Rates and Particulars of Insurance may be had on application to
